Subject: contact info for IHNC landowners

Dr. Lo,

I was not able to track down the landowner names themselves, but I do have the contact information for three people that will likely have that information for you:

- 1) Steve Spencer (Orleans Levee District), 782-8641 or 286-3100: he likely deals with most of the landowners who abut the Orleans Parish levee system, i.e. the landowners in the areas on the GIWW.
- 2) Bob Turner (Lake Borgne Levee District), 512-6330: like Steve, he would deal with the Landowners around Lake Borgne, mostly in St. Bernard Parish
- 3) Lisa Richardson (Dock Board), 813-5438: likely would have information on the industries along the Michoud Canal.

Let me know if none of these leads work for you and I'll do some more digging.

Lee Z. Walker

11/27/2006

Materials Management Group, Inc

Interview Form

Address: Seabrook Site

Project #: 2848 ACE

Date: 10/12

Time: 1500

Contact: Clayton Miller

Phone #: 504-528-3324

Firm: Port of New Orleans

Discussion

- Not knowing any environmental violations and environmental lien to the site
- To the south of the Property at westbank of IHNC (by first slip) the property required a deed restriction due to past remediation effort. Because the ~~site~~ area of contaminant was closed to IHNC and could not be completely remediated. The site must not be use for residential purposes.

Follow Up Required

Interview Form

Address: Seabrook Site

Project #: 2848 ACE

Date: 10/13/06

Time: 1:00

Contact: Steve Spencer

Phone #: 504-782-8641

Firm: Orleans Levee Board

Discussion

- The Orleans Levee Board does not own or manage the property. He was not aware of any environmental violation or incident associated with the site.
- He was not aware of any environmental lien to the property.
- He thought Port of New Orleans is the proper organization for the site.
